

Energy Management Policy

Responsible energy use

Issued by	PROTEC GmbH
Applicable for	Office-Based Small Business Operations
Version	1.0
Effective Date	01.05.2026

1. Purpose

PROTEC GmbH is committed to responsible energy use and continuous improvement of energy performance. This policy outlines PROTEC's approach to energy management and carbon footprint reduction.

2. Energy use

PROTEC's operations are powered almost entirely by photovoltaic energy. PROTEC monitors energy consumption and seeks further efficiency improvements across facilities, warehouse operations and office activities.

3. Carbon footprint

PROTEC is committed to further reducing its carbon footprint through energy efficiency, responsible logistics choices and engagement with suppliers on environmental performance.

4. Responsibilities

Management sets energy objectives. Employees contribute by using resources efficiently and reporting improvement opportunities.

5. Review

Energy performance and this policy are reviewed regularly.
